

# Modernizing Recon with Workflow Technology

Tim Scherschligt,  
Pre-Owned Manager

### RAPID RECON ROI:

- Data-driven clarity that improves recon workflow
- Accountability that boosts productivity & cuts waste
- Identifies under-performing departments
- Tracks vehicles by location & status in the process
- Cuts recon time-to-market by several days
- Brings time-to-market gains to new-car PDI

Aaron Mills,  
CFO

MANAGING TIME-TO-MARKET AND HOLDING COST

**RR** **RAPIDRECON**

## How Rapid Recon Works

- 1 Rapid Recon is a web-based application accessed from any computer, tablet or smart-phone
- 2 Application is configured to a dealership's recon process and the progress of every car is visible from Received to the Front Line
- 3 Vehicles are automatically added to In-transit or received when purchased or booked
- 4 Upon completion of each job the next department scheduled for work is notified by text or email with a single click
- 5 Cycle times are reported for each step, they can be configured by department, and selected by any specific time period. This allows you to recognize productivity, and address bottlenecks in real time.

# Key Features .....

- **Simple** web interface accessible from any computer or mobile device
- **100% Custom** fitted to your particular recon process
- **Mobile integration** delivers text and email alerts
- Manage recon right from your smart phone
- Powerful **real-time reporting** capabilities
- Get Approvals with a click of a button
- Manage vendors with automated tasks lists
- Upload photos of any vehicle reconditioning
- Get automated daily updates on all open safety recalls
- Reports on vehicle status, step times & bottlenecks
- Update vehicle status with QR-code scanning
- Notes feature to show status and highlight problem cases

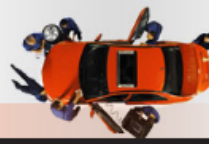

# Key Benefits.....

- Answer the question **“Where is that car?”**
- **Reduce holding Cost & Increase Gross**
- Prevents **“forgotten”** cars
- **Shorten vehicle cycle** time and **increase inventory turn**
- **Makes reconditioning measurable** and now manageable
- **Employees become more empowered** to take control of their performance
- **Transparency & Accountability** of every step eliminates departmental conflicts
- **Performance metrics** for departments and personnel
- **Quick ROI** within the first month

**NHTSA #: 15V345000 - OEM #: 7914J**

**Defect Summary**  
Mazda North American Operations (Mazda) is recalling certain model year 2003-2008 Mazda6 vehicles manufactured May 29, 2002, to May 5, 2008, 2004-2008 RX-8 vehicles manufactured April 10, 2003, to February 18, 2008, and 2006-2007 Mazdaspeed6 vehicles manufactured August 4, 2005, to June 29, 2007. The affected vehicles are equipped with a dual-stage driver frontal air bag that may be susceptible to moisture intrusion and other factors, including manufacturing variability that, over time, could c

**Consequence Summary**  
In the event of a crash necessitating deployment of the driver's frontal air bag, the inflator could rupture with metal fragments striking the driver or other occupants resulting in serious injury or death.

**Corrective Summary**  
Mazda will notify owners, and dealers will replace the driver's frontal air bag inflator, free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact Mazda customer service at 1-800-222-5500. Mazda's number for this recall is 7914J. Note: This recall supersedes recall 14V344 in its entirety. Additionally, vehicles that have had their driver's frontal air bag replaced previously as part of a recall remedy need to have their air bag replaced u
